

REMARKS

Drawing and Specification are objected to on formal grounds.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Andros et al US 5842175.

Regarding the objection under 35 U.S.C. 112, Applicant points out that the objectionable terms cognition, emotion, and motoricity are specifically defined in the description portion of this application. The term cognition is defined on page 3. The term emotion is defined on page 4. The term motoricity is defined on page 4.

Regarding the objection under 35 U.S.C. 102(b), the Examiner has not pointed to any disclosure in the cited reference which teaches the interconnection of three different service providers, as currently claimed. Instead, the cited reference discloses a detailed system for recording and retrieving general patient data.

CONCLUSION

Applicant asserts that all of the Examiner's objections have been obviated, and therefore now respectfully requests withdrawal of the objections and allowance of the application.

PETITION FOR AN EXTENSION OF THE TERM

Applicant petitions the Commissioner for a three-month extension of the terms from 25 December 2007 to 25 March 2008. Accompanying this response is \$525 to cover the cost of the extension. Any overpayment or underpayment should be credited or charged to deposit account no. 04-2219 referencing our docket number 12319.

Respectfully submitted,

Keith A. Orum
